Club, in reconstructing a Brown and a putting ground, in place of ones destroyed by the construction of the new Church road.

Resolved that the Board bear the cost of the construction of the Brown to the extent of Rs. 40, but not of the putting ground, which was already in disuse and out of repair.

6. Read Government Proceedings No. 9437-45—L. F. (332-05)-2, dated 14th March 1906, sanctioning the budget estimate for 1906-07.

Resolved that the Government be again requested to accord sanction to the entertainment of a competent accountant, and to the proposed increase in the salary of the existing clerks.

7. Read Government Proceedings No. 9592—Med. 195-05, dated 16th March 1906, requesting the Deputy Commissioner and President to submit in consultation with the Board his suggestions for improvements in the administration of measures for the treatment of small-pox and other epidemic diseases on the Fields.

Read also Government Proceedings No. 3049-68—Leg. 21-05, dated 1st May 1906, regarding the introduction of compulsory vaccination on the Fields.

Resolved that the Deputy Commissioner and President do inform Government that some of the observations regarding certain short comings, are based on somewhat incomplete or not quite accurate information, *e. g.*:—

The registration of births and deaths on the Field is being particularly carefully attended to; all the patels are supplied with registers and maintain them, the compulsory notifying of epidemic diseases is vigorously enforced, and well understood by the people, and all detected cases of non-compliance with the rule are prosecuted, over twenty in the last three months being so prosecuted, and convictions attained in the majority of such instances; that the Board concurring with the Senior Surgeon and Sanitary Commissioner, in thinking that the services of an Assistant Sanitary Inspector are desirable, request sanction for the entertainment of one on a salary of Rs. 75 rising to Rs. 100, by yearly increment of Rs. 5 the first year, and Rs. 10 the two following years; that the Board approve of the proposal to convert the Rent collectors into Assistant Sanitary Overseers, with an increased pay of Rs. 5 each, and with the additional work of acting as Headman of the various cooly colonies, with the fixed registry office in each, to be opened daily at fixed hours; and finally that the Board consider the introduction of compulsory vaccination and re-vaccination within the Sanitary Board area, to be a measure of the greatest importance and protective value to the Gold Mining Industry, and therefore request, this being declared compulsory, within the Sanitary Board area.

The question of a Health Officer is an important one, which requires, and will receive, further consideration.

8. Read Superintending Engineer's docket No. 2104, dated 24th April 1906, regarding the lighting of certain roads on the Field, by electric light.

Resolved that the Superintending Engineer be informed that Plumer road may be omitted, and that the other roads named in his letter under reply, comprise all the roads, that the Board are ever likely to want lit by electricity.

R. B. PLUMER,
for *Presdt., Sany. Board,*
Kolar Gold Fields.
